

NON-DOMESTIC WASTE GUIDELINES

COLLECTION CENTRES

A wide variety of types of sorted waste can be brought to collection centres, including but not limited to: wood, metal and metal packaging, WEEE (household appliances and electronics), fluorescent lights, furniture, batteries and accumulators, medicines, food oils and fats (max 5 litres), plastic crates, empty jugs. Materials that are collected during home pick up, such as organic waste, packaging like glass, paper/cardboard, plastic and tin cans may also be taken to collection centres if you have large quantities of waste and/or waste that is particularly large in size.

COLLECTION CENTRE OPENING HOURS

SUMMER HOURS (April - October):

Monday to Saturday from 8am to 6pm and
Sunday from 8am to 3pm

WINTER HOURS (November - March):

Monday to Saturday from 8am to 5pm and
Sunday from 8am to 3pm

via Rizzolo, 48, Udine

via Stiria, 3, Udine

Attention: Material will only be accepted after it has been pre-sorted by individual waste type by the user.

'Non-domestic' users of waste disposal services (shops, commercial activities, businesses, etc.) that have been duly registered are authorised to bring differentiated waste.

The two collection centres are equipped with special access control equipment, so you must show the specific card (badge) provided by Net S.p.A. to 'non-domestic' users.

You can request and receive your badge at the operations centre in via Gonars 52.

- Tuesdays - from 2pm to 3:30pm
- Fridays - from 9am to 12pm and from 2pm to 3pm

Dedicated extra pick up and transport services for municipal waste

Non-domestic users may specifically request additional pick ups outside of the ordinary pick up schedule for paper/cardboard packaging, plastic, glass/cans, organic waste and non-recyclable general waste. This also includes the service of collecting paper materials (documents) to be sent for shredding/destruction.

If requested, these additional services will be evaluated by Net S.p.A in order to present a suitable estimation of the cost.

Should the proposal be accepted, a contract between the parties will be drawn up and signed.

The material must be placed in the proper location the evening before the agreed upon pick up day between 7pm and 12am

Pick up is carried out during the following day in the time slots specified for each zone.

Proper use of public litter bins

The only waste that should be placed in **litter bins** are small items (grocery receipts, small amounts of packaging from food products, used tissues, bus tickets, etc...).

Depositing household and non-domestic waste near litter bins is no different from littering, and as such it is a punishable offence.

It is forbidden to deposit 'household' waste in litter bins because:

- they are made for small pieces of waste;
- household waste is already collected through the door-to-door system, which allows for many materials to be recycled, recovered and reused with both environmental (less waste produced) and economic benefits;
- material placed in litter bins is unsorted, which means it is not recycled, generating higher management costs for the community.

Large waste collection upon request

Activities included in the service

Roadside collection of large municipal waste items that due to their nature or size are not compatible with home or street pick up or other pick up methods routinely used during waste management procedures.

Large waste includes, but is not limited to, durable large items (furniture and mattresses), WEEE (household appliances and electronics), large quantities of prunings and other biodegradable waste, wood, metal and plastic materials.

Home pick up of large waste on the street outside of your residence can be requested as a paid service, as specified in detail at the following link

Users must provide the following basic information in order to receive the requested **service:**

- first and last name and tax code – VAT number;
- user code;
- utility code and address of the utility at which pick up is requested;
- the e-mail address or telephone number at which you may be contacted during service provision;
- information on the waste to be picked up and, in particular, the type and number/size of the waste to be picked up
